Two-part questions provide students with several chances to see whether they have learned. Rural patient navigation is one of the hottest topics in health care right now. There's a whole host of studies, congressional hearings, books, and public advocacy making the case for reforming how Americans get healthcare. Of course, there's also a lot of rhetoric along with the science. There's a common misunderstanding about what navigation actually means and how it works, so it's important to straighten out the facts. Here's the difference between "patient navigation" and "community navigator": Navigation vs Community Navigator Navigation is a specialized role within the clinical

---

team. Community navigators are typically outside of the clinical team. Navigation helps patients understand their care plan and then helps them and their primary care provider work through problems that arise from an illness or injury. Community navigators work with patients, families, and other health care providers to ensure that all aspects 50b96ab0b6

When you open the file, you'll be able to. a 6th edition of the text, but the original solution manual (9-12 years old).
